## [7] Other

## 1. Impact of the plan amendment and curtailment in consolidated subsidiaries on the Company's consolidated financial position and results of operations

In September 2013, certain consolidated subsidiaries in North America amended their defined benefit pension plans, effective January 1, 2014.

This plan amendment resulted in a reduction of the projected benefit obligation and recognition of the prior service benefit at the date of the plan amendment which is amortized over the average remaining service period from the date of the plan amendment. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of related plan assets at the date of the plan amendment. The effects of the plan amendment and the remeasurement are recorded in other comprehensive income (loss), net of tax during the three months ended September 30, 2013.

Following this plan amendment, certain employees elected to move to the defined contribution pension plan in October 2013, resulting in a curtailment in the defined benefit pension plans. As a result, Honda recognized JPY 21,368 million of the prior service benefit included in accumulated other comprehensive income (loss) as a curtailment gain, of which JPY 15,407 million is included in cost of sales and JPY 5,961 million is included in selling, general and administrative expense in the accompanying consolidated statements of income for the three months ended December 31, 2013. The consolidated subsidiaries also remeasured their projected benefit obligation and the fair value of plan assets in the defined benefit pension plans at the date of the curtailment. The effect of the remeasurement is recorded in other comprehensive income (loss), net of tax during the three months ended December 31, 2013.

## 2. Impairment loss on investments in affiliates

For the nine months ended December 31, 2014, Honda recognized impairment loss of JPY 15,901 million on certain investments in affiliates which have quoted market values because of other-than-temporary decline in fair value below their carrying values. The fair values of the investments were based on quoted market price. The impairment loss is included in equity in income of affiliates in the accompanying consolidated statement of income. For the three months ended December 31, 2014, Honda did not recognize any significant impairment losses.

## 3. Loss related to defects of airbag inflators

Honda is expanding warranty programs with regard to the product recalls and SIC (Safety Improvement Campaign) related to defects of airbag inflators.

Honda recognizes an accrued warranty liability for specific warranty costs we deem probable and which can be reasonably estimated related to the product recalls and SIC.

In the North America, various lawsuits related to the above mentioned product recalls and SIC have been filed against Honda. Honda recognizes an accrued liability for loss contingencies when it is probable that an obligation has incurred and the amount of loss can be reasonably estimated. Regarding the above, Honda does not recognize an accrued liability for loss contingencies because the conditions have not been met as of the date of this report. Also, it is not possible to reasonably estimate the amount of a possible future loss at this time.

## 4. National Highway Traffic Safety Administration (NHTSA) Inquiry Regarding Early Warning Reporting

Honda's consolidated subsidiary in North America has entered into an agreement with NHTSA, to resolve the government's inquiry into Honda's early warning reporting as required by the Transportation Recall Enhancement, Accountability and Documentation (TREAD) Act.

As part of the Consent Order, Honda will pay a JPY 8.0 billion (USD 70 million) civil penalty and continue to implement a series of corrective measures among other requirements. This penalty is included in selling, general and administrative expense in the accompanying consolidated statements of income for the nine months ended December 31, 2014.

Notes:
1 Non-financial services businesses provide loans to finance subsidiaries. These cash flows are included in the decrease (increase) in investments and advances, proceeds from (repayment of) short-term debt, proceeds from long-term debt, and repayment of long-term debt (marked by *). The amount of the loans to finance subsidiaries is a JPY 2,330 million decrease for the fiscal nine months ended December 31, 2013, and a JPY 80,786 million decrease for the fiscal nine months ended December 31, 2014, respectively.
2 Decrease (increase) in trade accounts and notes receivable for finance subsidiaries is due to the reclassification of finance subsidiaries-receivables which relate to sales of inventory in the unaudited consolidated statements of cash flows presented above.
