*1 Capital expenditures as well as Depreciation in results and forecast aforementioned exclude investment in operating leases, right-of-use assets, and intangible assets.
*2 Research and development expenditures are research and development activity related costs incurred during the reporting period. In accordance IFRS, a portion of research and development expenditures is recognized as an intangible asset and amortized over its estimated useful life.
As such, this amount is not in conformity with "Research and development" on Consolidated Statements of Income.

## Caution with Respect to Forward-Looking Statements:

This slide contains forward-looking statements about the performance of Honda, which are based on management's assumptions and beliefs taking into account information currently available to it. Therefore, please be advised that Honda's actual results could differ materially from those described in these forward-looking statements as a result of numerous factors, including general economic conditions in Honda's principal markets and fluctuation of foreign exchange rates, as well as other factors detailed from time to time.

## Accounting standards:

Our consolidated financial statements are prepared in conformity with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB)

## Notice on the Factors for Increases and Decreases in Income:

With respect to the discussion above of the change in Operating profit, management has identified the factors set forth below and used what it believes to be a reasonable method to analyze the respective changes in such factors. Each of these factors is explained below. Management has analyzed changes in these factors at the levels of the Company and its material consolidated subsidiaries.
(1)"Currency effects" consist of translation adjustments, which come from the translation of the currency of foreign subsidiaries' financial statements into Japanese Yen, and foreign currency adjustments, which result from foreign-currency-denominated sales, which, at the levels of the Company and those consolidated subsidiaries which have been analyzed, primarily relate to the following currencies: U.S. dollar, Canada dollar, Euro, GBP, BRL and Japanese Yen.
(2) With respect to "Cost reduction, etc.", management has analyzed cost reduction and effects of raw material cost fluctuations at the levels of the Company and its material foreign manufacturing subsidiaries in North America, Europe, Asia and other regions.
(3) With respect to "Revenue, model mix, etc.", management has analyzed changes in sales volume and in the mix of product models sold in major markets which have resulted in increases/decreases in profit, as well as certain other reasons for increases/decreases in sales revenue and cost of sales.
(4) With respect to "Selling, General and Administrative expenses", management has analyzed reasons for an increase/decrease in selling, general and administrative expenses from the previous fiscal year net of currency translation effects.
(5) With respect to "Research and Development expenses", management has analyzed reasons for an increase/decrease in research and development expenses from the previous fiscal year net of currency translation effects.

## Unit sales:

## Motorcycle Business

Honda Group Unit Sales is the total unit sales of completed products, including motorcycles, ATVs, and Side-by-Sides of Honda, its consolidated subsidiaries and its affiliates and joint ventures accounted for using the equity method. Consolidated Unit Sales is the total unit sales of completed products corresponding to consolidated sales revenue to external customers, which consists of unit sales of completed products of Honda and its consolidated subsidiaries.

## Automobile Business

Honda Group Unit Sales is the total unit sales of completed products of Honda, its consolidated subsidiaries and its affiliates and joint ventures accounted for using the equity method. Consolidated Unit Sales is the total unit sales of completed products corresponding to consolidated sales revenue to external customers, which consists of unit sales of completed products of Honda and its consolidated subsidiaries. Certain sales of automobiles that are financed with residual value type auto loans by our Japanese finance subsidiaries and sold through our consolidated subsidiaries are accounted for as operating leases in conformity with IFRS and are not included in consolidated sales revenue to the external customers in our Automobile business. Accordingly, they are not included in Consolidated Unit Sales, but are included in Honda Group Unit Sales of our Automobile business.

## Life Creation Business

Honda Group Unit Sales is the total unit sales of completed power products of Honda, its consolidated subsidiaries and its affiliates and joint ventures accounted for using the equity method. Consolidated Unit Sales is the total unit sales of completed power products corresponding to consolidated sales revenue to external customers, which consists of unit sales of completed power products of Honda and its consolidated subsidiaries. In Life Creation business, there is no discrepancy between Honda Group Unit Sales and Consolidated Unit Sales since no affiliate and joint venture accounted for using the equity method was involved in the sale of Honda power products.
