## [C] Other

## Loss related to airbag inflators

Honda has been conducting market-based measures in relation to airbag inflators. Honda recognizes a provision for specific warranty costs when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. There is a possibility that Honda will need to recognize additional provisions when new evidence related to the product recalls arise, however, it is not possible for Honda to reasonably estimate the amount and timing of potential future losses as of the date of this report.
