

Honda Issues “Honda ESG Report 2026”

TOKYO, Japan, June 29, 2026 – Honda Motor Co., Ltd. today issued the Honda ESG Report 2026, posting it on the company website.

As one of the tools to enhance communication with a diverse range of stakeholders, Honda has been issuing its annual "Honda ESG Report," which comprehensively summarizes the company's approach and initiatives to enhance its sustainability from the Environment, Social, and Governance (ESG) perspectives.

Honda has realigned the powertrain portfolios and product launch plans for its motorcycle, automobile, and power products businesses, considering changes in the current business environment and demand trends. Additionally, Honda has reset the management indicators and targets toward achieving the company goal of carbon neutrality by 2050. Moreover, Honda has reassessed its corporate governance structure to ensure the steady execution of each business strategy and enable bold and transparent decision-making.

This year's Honda ESG Report outlines the rationale behind these new environmental indicators and targets, the roadmap for achieving the new targets, and initiatives to enhance Honda corporate governance.
