Honda Environmental Concept

Striving for a sustainable and circular society that aims for "zero environmental impact"

Clean Energy 100% utilization of carbon-free energy

What We'd Like to Achieve

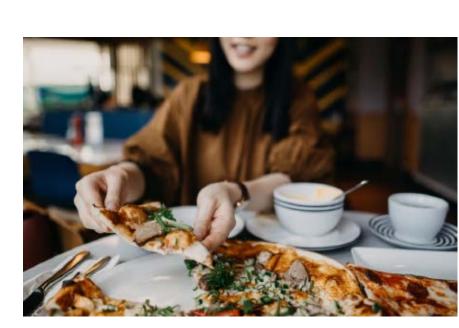

Realizing "The Joy and Freedom of Mobility" and "A Sustainable Society Where People Can Enjoy Life"

We want to continue to respond to people's eternal need for the "Joy of Mobility"

I want to go to see my loved ones.

I want to make new discoveries.

We cannot respond to these desires unless we protect the global environment. Therefore, we want to achieve a "Sustainable Society"

Honda Environmental Concept

Multi-pathway Towards Carbon Neutrality

In addition to electricity derived from renewable energy **Recycle hydrogen and carbon as energy carriers**

I want to eat delicious food.
