2030 Vision

The 2030 Vision formulated by Honda is expressed in the statement, “Serve people worldwide with the ‘joy of expanding their life’s potential’—Lead the advancement of mobility and enable people everywhere in the world to improve their daily lives—.” To embody this Vision, the Company set the direction of its concrete initiatives as action guidelines for the 21st century from three perspectives: “Creating the Joys,” “Expanding the Joys” and “Ensuring the Joys for the Next Generation.”

From the first perspective of “Creating the Joys,” Honda will work on “creating value for ‘mobility’ and ‘daily lives.’” The Company will focus on three areas, namely mobility, robotics and energy, in order to provide people with the “joy and freedom of mobility” and “joy of making their lives better.”

From the second perspective of “Expanding the Joys,” Honda will undertake efforts to “accommodate the different characteristics of people and society.” In this area, the Company will strive to further expand the joy of people by offering products and services that are optimized for all people reflecting different cultures and values and

diverse societies, irrespective of whether they are in developed or developing nations.

From the third perspective of “Ensuring the Joys for the Next Generation,” the Company will make progress “toward a clean and safe/secure society.” Striving to become No.1 in the areas of the environment and safety, Honda will invest more resources in these areas and will strive to become a company that leads efforts to realize a carbon-free and collision-free mobile society.

In this Vision, Honda has returned to its universal passion and made a major shift in its direction from quantity to quality. To this end, the Company has set its corporate attitude to realize “growth through the pursuit of quality.” The Company will aim to expand the circle of joy and let the Honda brand shine even brighter through the steadfast pursuit of the “quality of value Honda provides” and “quality of its initiatives.”

To realize this Vision, the Company will make effective utilization of limited corporate resources to transform and evolve existing businesses and create new value.
