Stakeholder Engagement

Basic Approach

To be a “company that society wants to exist,” Honda must put into practice a communication cycle. This means to: 1) appropriately and accurately convey to society the value that it seeks to provide; 2) engage in dialogue with diverse stakeholders to grasp and understand the demands and expectations placed on the Company; 3) translate these into concrete measures and implement them; and 4) listen to stakeholders’ evaluations of its activities.

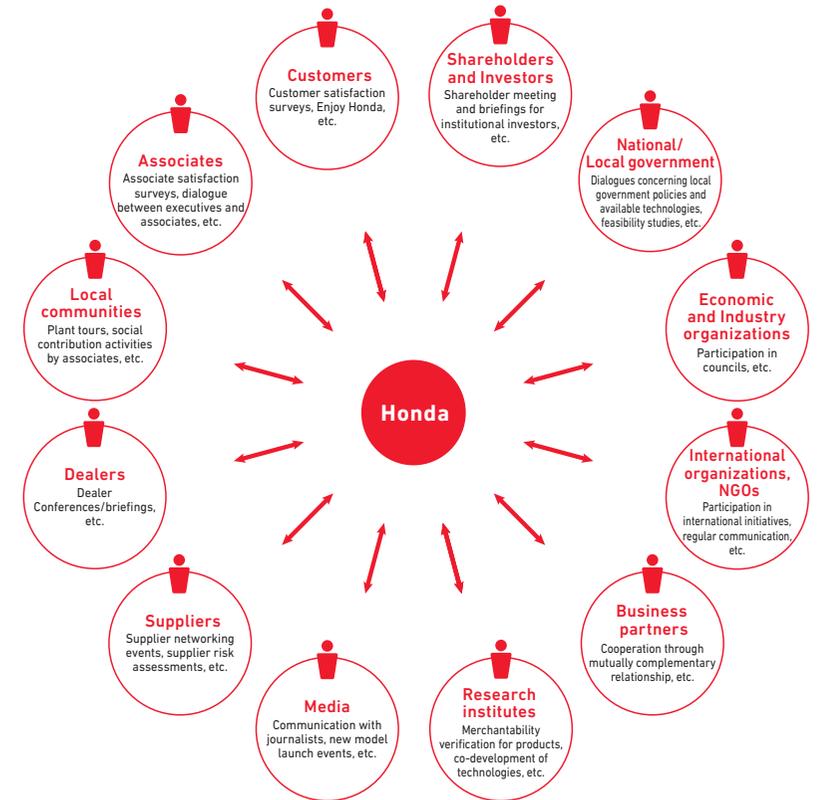

Especially in recent years, the growing scale and globalization of companies, along with the rapid proliferation of IT, have heightened the impact of companies on society, and vice-versa. As this process continues to accelerate, Honda considers that stakeholder dialogue is a beneficial tool that leads to a proper understanding of stakeholders regarding the Company’s initiatives while also giving the Company an understanding of changes and risks in the social environment.

Based on this understanding, Honda engages in dialogues globally through various opportunities. These dialogues are conducted between key stakeholders (that are either impacted by Honda’s business activities or whose activities impact Honda’s business activities) as shown in the diagram indicated at the right and respective divisions within Honda.

As an example, engagement with shareholders and investors consists of dialogue aimed at ensuring that Honda is understood accurately through shareholder relations and investor relations activities.

In addition, opinions gained from dialogues with leading ESG rating agencies and NGOs are reflected in the Materiality Analysis (⇒ p. 19), which is utilized in identifying issues Honda ought to be addressing.

Cooperation with External Organizations

To carry out our responsibility as a global mobility company, Honda engages in dialogues with government, economic and industry organizations and also cooperates with external bodies. In Japan, Honda executives serve as vice chairman and committee head within the Japan Automobile Manufacturers Association(JAMA); committee head in the Japan Business Federation (Keidanren); and vice chairman and committee head in the Tokyo Chamber of Commerce and Industry.

In addition, Honda executives serve as committee and working group chairs and other representatives in the international motorcycle and automobile industry bodies such as The International Motorcycle Manufacturers Association (IMMA) and Organisation Internationale des Constructeurs d'Automobiles (OICA). Furthermore, Honda cooperates with initiatives related to sustainability through membership in the World Economic Forum (WEF) and the World Business Council for Sustainable Development (WBCSD).

At Honda, we delegate authority to Regional Operations within a certain scope when executing business in respective regions in order to enhance local autonomy and enable speedy decision-making. Political contributions* can be made following required internal procedures based on the laws and regulations of respective countries.

* Political contributions were made to the People's Political Association in the amounts of ¥25 million in FY2019, ¥25 million in FY2020 and ¥25 million in FY2021. Honda has confirmed that these expenditures do not infringe on "the Honda Guideline for the Prevention of Bribery and Corruption."

Securing a B Rating in the CDP Japan 500 Climate Change Report 2021

In December 2021, CDP released the results of a survey on climate change initiatives and reduction of GHG emissions for major companies worldwide.

Honda received a B rating in the CDP Japan 500 Climate Change Report 2021, one of those categories.

CDP is an international NPO that provides a global system for measuring, disclosing, managing and sharing important environmental information from companies and cities. The level of company initiatives in environmental challenges is evaluated in the four stages of information disclosure, awareness, management and leadership.

Please refer to the Environment section of the Performance Report (⇒ p. 55) for the items required by the FSB Task Force on Climate-related Financial Disclosures (TCFD), one of the CDP evaluation indices.
